## FOREWORD

*Prime Contract Awards in Labor Surplus Areas* was published annually for fiscal years 1989 and 1990 due to statistical anomalies in the first half of fiscal year 1989. Semiannual publication of this report resumed in the first half fiscal year 1991. This report provides detailed information on Department of Defense (DoD) prime contract awards over \$25,000 for performance in labor surplus areas. Supporting data are presented by state, county, and city, according to the purchasing department making the awards.

## INTRODUCTION

*Prime Contract Awards in Labor Surplus Areas: First Half Fiscal Year 1992* presents detailed information on DoD prime contract awards over \$25,000 awarded to contractors located in a labor surplus area (LSA). Except for Table 2, data include information on contracts awarded to U.S. business firms, and educational and nonprofit organizations. The report excludes awards to Government agencies, awards for work outside of the United States, and awards in support of the DoD Foreign Military Sales program. (Table 2 contains data on awards to U.S. business firms only.)

The previous first half figures appearing in this publication differ from the originally published figures. This is due to changes received during the second half of the fiscal year for records originally submitted in the first half and represents the most accurate data available for the previous first half.

The U.S. Department of Labor (DOL) has responsibility for defining LSA's and for establishing eligibility criteria. (Criteria for consideration as an LSA and a list of eligible areas are contained in DOL's monthly publication *Area Trends in Employment and Unemployment*.)

## CHANGES IN LSA REPORTING

As of December 31, 1991, pursuant to the DoD Federal Acquisition Regulation Supplement (DFARS) 204.6, DoD is no longer required to collect or report LSA set-aside or LSA preference awards. Consequently, Table 1's LSA preference awards reflect only the first three months of FY 1992. Major design changes were made to Table 2 and Tables 4 through 6 were discontinued.

## OVERVIEW

Table 1 provides data on DoD prime contract awards in LSA's for FY 1989, FY 1990, FY 1991, and first half FY 1992, both in terms of their net value and as a per-

cent of total DoD procurement. Table 1 also shows the net value of all preference awards prior to January, 1992 (those contracts awarded as either partial LSA set-asides, tie-bids, or combined small business/LSA set-asides), as well as the percent of total procurement and the percent of total LSA awards these preference awards represent. A third component of Table 1 shows the total number of civil jurisdictions within the United States and the number of designated LSA's within these jurisdictions.

Table 2 presents data on all LSA awards to U.S. business firms by type of firm. The amounts for total small business firms reflect the cumulation of small disadvantaged business and other small business firms. The amounts for all business firms reflect the cumulation of total small business firms and large business firms.

The data in Table 3 are presented by state, county, and city, according to the awarding agency, which can be either a military department, the Defense Logistics Agency (DLA), or the Army Corps of Engineers for Civil Functions (OCE). Awards by other defense agencies are included as part of the Army total.

## HIGHLIGHTS

As shown in Table 1, DoD prime contract awards over \$25,000 for performance in LSA's during the first half of FY 1992 total \$8,473 million, or 18.6 percent of all DoD awards, compared with \$13,215 million, or 24.9 percent, during the first half of FY 1991. The difference in percentages between the first half of FY 1992 and the first half of FY 1991 is significant - a decrease of 6.3 percent. But when compared with FY 1989, the percent difference is less than 2.0 percent.

Table 2 shows a very interesting anomaly. Of all the types of businesses shown, only the small disadvantaged business firms show an increase in dollars from the corresponding period in the prior year.

- FOOTNOTES -

- 1/ Includes procurement actions of over \$25,000 for supplies, services, and construction. Data are on a net value basis representing the value of new awards and contract increases minus the value of contract terminations and decreases.
- 2/ Labor Surplus Areas and their geographic boundaries are designated by the Department of Labor in their publication "Area Trends in Employment and Unemployment."
- 3/ Net Value for period of time each area was designated as a Labor Surplus Area.
